### IWENTY NEW CARS FOR RUSH HOURS

President Wheelwright Tells Street Committee Why Service Is Congested.

### NOW RUNNNG 65 EXTRA CARS

Suggests Varying Hour for Closing Factories and Offices in Effort to Help.

To relieve congested conditions during the rush hours, morning and night,

ing the rush hours, morning and night, twenty additional cars of the largest and most modern type have been ordered by the Virginia Railway and carly fall, whay for delivery in the carly fall, what for the line of the lines of the company complaints in regard to traffic congestion on certain of the lines at certain hours, the lines of the company complaints in regard to traffic congestion on certain of the lines at certain hours, the lines of the company to meet the situation.

Mr. Wheelwright says:

"The Present Schedules.

Mr. Wheelwright says:

"The company has been by no means what company has been by no means what company is control. At the present time we would like, that has been due to circumstances temporarily beyond the company's control. At the present time we operate for the fall of the morning and close the same gent mun that the Governor in the time of opening and close in the time of opening and close in the same gent mun that the view in the same gent mun that the view in the line of the fact, owing the

On the Main Street line we operate fourteen base cars and thirteen extra cars during the rush, between 5:20 and 7 P. M., on a maximum schedule of two minutes on that line. During the hours when the factories and stores close on Main and Broad Streets there is inevitably more or less congestion due to the fact that the entire traffic some cars, regardless of how close they are running together. If a car should be delayed only a fraction of a minute, it takes on not only its own load, but a part of the load of the car following, as passengers are un-willing to wait if even foothold can obtained. This frequently causes car to be overcrowded, whereas next may be only half-full, and this especially the case where the small-

"In order as far as possible to re-lieve congestion in the West End ser-vice, the Broad and Twenty-fifth Street line is now operated throughout the day to the Reservoir.

"Taking the situation generally in the city, we operate at present time on the Richmond division 191 base cars on an eighteen-hour service, and, in addition operated. ddition, operate throughout the rush

and most modern type, which will be placed in service in the early fall and which will undoubtedly avoid conger-

year, at least two days shall clapse after each heavy rain or wet spell before such heavy hauling shall be done, and loads shall be limited to 1,000 pounds a wagon whenever the

road is soft enough to cut and injure it with heavier loads.

The contract for building a county stable was let to David Kindle,

An order was given for a corrugated metal pipe, six yen feeting and twenty-four highes in diameter, to take the

place of a bridge on the Truxillo Road and this is an experimental order to

st the economy question compared ith lumber for bridges and culverts. A number of bills were audited, and

it was determined to start the convict force on the road, beginning at the Im-perial Tobacco Factory and extending to the Beville Bridge Road, thence down that road in the direction of

Mannhore, the effort being to connect the outlying districts of the county with the county seat. The force will

move at least six months in this direction, and then perhaps six months west, towards Truxillo.

To Attend Conference.

Miss Lilian W. Johnson, Ph. D., of Memphis, Tenn., will arrive in the city to-morrow, and will be at the Jefferson. Miss Johnson will attend the Conference of Education. She is a special commissioner of the American Commission for the Study of Co-Operation in Europe, and will be a member of the staff of the Federal commission, which sails for Europe on April 25.

Aldermen Meet To-Night.
The Board of Aldermen will meet to-night at 8 o'clock, with a large docket of papers from the Common Council for final concurrence.

of our own people and of strangers who visit the city, and will always endeavor, as far as is reasonably possible, to anticipate the needs and desires of this growing community."

the house for you until I seen your friend with another young lady, an then I jus' knowed there wasn't no

"Well, there ain't no use in gettin' so sore about it; I cert'ny didn't have no idea of causin' no offense. Only I thought that as clost friends as you an' me has been there wasn't nothin' out of the way in me askin' you a simple, lady-like question, an' I hadn't heard nothin' about the gent'mun be-

ing pinched.

"Anyhow, dearie, now you know that reach the care at the rush hours in the morning and afternoon sixty-five extra cars. It will, therefore, be seen that, though we are in need of additional equipment to fully serve the public during the rush hours, yet the cars at present in service are more than ample to take care of all the traffic for the next five years, except at the rush-hour period.

"It is, however, the carnest desire of this company to avoid overcrowding at any time as much as possible, and for that reason we have placed orders for twenty additional cars of the largest and most modern type, which will be placed in service in the early fall and which will undoubtedly avoid conger."

"You see, there's a noble young

placed in service in the early fall and which will undoubtedly avoid congent which will undoubtedly avoid congent to thereafter. The summer cars have also recently been placed in service, and that will relieve the situation during the summer, besides which it is an interesting fact that as the days become longer the movement of traffic during rush hours covers a longer period than during the winter season, and is therefore easier to handle.

Factory Closing Hours.

Valiant Fight Is Being Made by No Evidence to Connect Women Towns in Mississippi

[Special to The Times-Dispatch.]
Washington, April 11.—Official figures made public by the American Red Cross Society to-day placed the loss of life suffered through the recent Obio floods at 500, with 100,000 rendered homeless and a property damage of \$250,000,000.
Dayton, Columbus and Hamilton, O., were the greatest sufferers. The loss of life at Dayton was 150; at Columbus, eighty-nine, and at Hamilton, seventy-two.

Call for Rations.

[Special to The Times-Dispatch.]

Memphis, Tenn., April H.—A requisition for ten days' rations was made on the government to-day by the Memphis Relief Committee, who say that fully 19,99 persons and 5,099 head of stock, mostly west of Memphis, are in need of help. Major J. E. Normoyle, in charge of government relief here, will be asked to distribute these extra rations.

Reports received from Edmundson, Ark., say that there is considerable suffering among people around that town, and that feed for stock is badly needed. Several cases of meningitis are reported at Marked Tree, Ark., where the water is four feet deep in the town. Manila, Turrell and Clarksdale, Ark., also are under water.

High water conditions around Memphis have greatly improved. Major Normoyle has finished sending out rations up and down the river. To-morrow he will remove his headquarters to Vicksburg, which will be the next fleed centre.

Weakened conditions in the main river dike at a joint just south of Rosedale, Miss., are causing considerable anxiety to engineers. Bodis and sloughing were observed there late Sunday night. To-day it was reported the situation was improved, though still dangerous.

The leves between Osceola and Luxora, Ark., holds.

The river here at 7 c'clock to-night was \$3.4. a fall of 1 in twelve hours.

Washington, April 16.—The United States stands fourteenth among the nations of the world in number of government-owned aeroplanes and in government expenditures for aerial navigation during the past five years. Figures compiled under direction of Brigadier-General George P. Scriven, chief signal officer of the army, show that Germany leads the world with 400 aeroplanes and a total expenditure of \$23,000,000 during the past twe years. The United States at present owns twenty-eight aeroplanes, and its total expenditure on that branch of science in the last five years was \$42,000.

Other countries rank the United States in aeronautics in the following order:
France, Russia, Italy and Austria, Great Britain, Belgium, Japan, Chile, Bulgaria, Greece, Spain and Brazil.

Governor Makes Recommendations for Ending Trouble in Coal Fields.

Friedmann.

Washington, April 14.—Dr. Friedrich Franz Friedmann, of Berlin, who declares he has discovered a cure for tuberculosis, brought his visit to the capital to a close to-day with a clinic at the Georke Washington University, at which he inoculated twelve volunteer patients with his vaccine. The clinic was witnessed by Secretary Bryan, Assistant Secretary Caborn, the German ambassador, the Swiss minister and several United States army and many surgeons.

More than 196 patients appeared at the university hospital dispensary, and from this number the doctor nelected twelve typical cases, some of which had already advanced to the third stage of the disease. Five of the patients were small children, who were carried or walked on crutches.

During the day Dr. Friedmann called at the White House and President Wilson told him he earnestly hoped his vaccine would prove successful. ernor Hatfield, who on April 5 de-clared he would make recommendahim he earnestly hoped his vaccine would prove successful.

After the clinic he saw Senators Luke Lea. of Tennessee, and William Hughes, of New Jersey, at his hotel. He was assured by Senator Hughes that an effort would be made to permit him to practice in the District of Columbia and, if possible, throughout the country.

Dr. Friedmann left for Providence to night and later will go to New York, He said he probably would again visit Washington for a few days before returning to Berlin.

None of the surgeons of the Public Health Service witnessed the demonstration to-day. tions which he hoped would be the means of ending the strike of the ing to statistics obtained."

In referring to the "guard system, the Governor says:

miners have been imposed upon and mistreated by the guard system that

SUBSIDING SUFFRAGETTES ARE BLAMED

Militants With Latest Outrage.

London, April 14 .- A milk can filled with gunpewder and connected with an electric fuse was found this afternoon inside the railing surrounding the Bank of England. It was removed by the police.

Smoke was issuing from the can when a policeman found it. He plunged it into a fountain. When the can was examined a clockwork arrangement was found inside

The attempt on the bank is attributed by some to the militant suffra-

gettes. The police, however, have been able to discover no clue as to who placed the bomb where it was found, and suffragettes with the alleged attempt only a small quantity of ordinary gun-

Dr. Mansell-Moullin, the suffragist medical man, who is attending Miss Zelie Emerson, reports that the attack of appendicitis from which she is suffering has become more acute. Her

physical condition still renders an operation dangerous.

Speaking at the weekly "rally" of the militant suffragette organization, the Women's Social and Political Association, "General" Mrs. Flora Drummond announced to-day that Mrs. Em-meline Pankhurst would be given a fortnight's rest. The speaker told how the militant leader had torn up the license given her on her release from jail, the remnants of which she said went back to Holloway Jail in the cab.
Mrs. Pankhurst is still in a serious

condition. It is even reported that she has had a relapse.

Attack on Suffragettes.
[Special to The Times-Dispatch.]

Washington, April 14.—A spirited attack upon the advocates of equal suffrage was made this afternoon by members of the Constitution Commembers of the Constitution Com-mittee of the National Association opposed to women's suffrage, which met here to draft a new constitution and

nere to draft a new constitution and prepare for opening an active campaign against the suffragists.

The new constitution flays the suffragists without mercy, and demands that the national legislators adopt measures to prevent the sprend of a propaganda which "threatens the peace of Americans."

ALLEGRO IN MERRY MOOD.

Forces His Guards to Laugh at Witty
Comments.

[Special Cable to The Times-Dispatch.]
Madrid, April 14.—King Alfonso
took a ride in the park this morning,
and was warmly saluted by crowds,
who noistly proclaimed their joy that
the King had escaped the bullets fired
by the anarchist, Rafael Allegro, yesterday. terday.
